

SACHS DOC

A future in and for Saxony

- You are a medical doctor and would like to live and work in Germany with your family?
- You would like to be financially and economically independent and run your own practice?
- You attach great importance to comprehensive language training and to professional contact persons?
- During this period of migration and integration, you would like to have an experienced mentor at your hand to answer all your questions and support you?

SachsDoc offers you:

- German language training based on EU-standards incl. specialisation in medicine
- professional mentoring up to the point of over-taking your own practice and, if required, beyond
- assistance and support with all red tape, public authorities and relevant departments
- a reliable and competent contact available for you 24/7 on the spot
- a maximum freedom from worries on the way to your new future

What are we looking for?

We want:

- in particular general practitioners and doctors with the specialisation in “general medicine” or “family medicine”
- medical doctors of other specialities

Citizenship:

- EU countries
- other countries on request

Personality requirements:

- high motivation
- determination
- commitment
- power and stamina to complete the language training
- willingness to blend in an other society, its values and culture (for example in learning typical German values like punctuality, reliability and correctness)
- willingness and ability to learn (language, way of thinking, culture, bureaucracy, administration, ...)
- readiness to take responsibility for other people (as a doctor and as an employer)

Project schedule

- preceding communication and talks via e-mail or Skype
- job interview in Germany incl. handover of documents and contracts
- with start of the project: commencement of the contractual liabilities of all parties
- migration to Germany
- 6 month of full-time German lessons in order to pass the B2 exam
- parallel to language training: the business start-up is arranged
- afterwards German language training for physicians and med. doctors
- at the same time, a gradual transfer of work tasks takes place (e.g. as intern or part-time employee), aiming to the final takeover of the practice
- during the entire project:
 - support and help with all (legal) formalities, public authorities, applications for subsidies, etc.
 - 24/7 available German contact person and organiser on location
 - continually meetings, individual conversations and help for the medical doctors and their families (for all sorts of problems and sorrows)

Timeline

Family

We take care of:

- integration of your marriage partner and children
- German lessons for all family members
- job search assistance as well as the search for nursery places, schools or apprenticeship training positions
- communication with authorities
- your bread-and-butter problems as well as any kind of questions, for example concerning recreational activities

Our goal

We want you and your family to feel comfortable and at home in Germany so that you are able to really settle down.

Costs

Every participant has the possibility to select an individually tailored package from a number of offered services. You can choose from different modules which affect the total price accordingly.

A large part of the costs will be due not before the end of the project when the participants started to earn money by working in their new practices. We intend to receive public as well European subsidies for as many parts of the project as possible.

Saxony

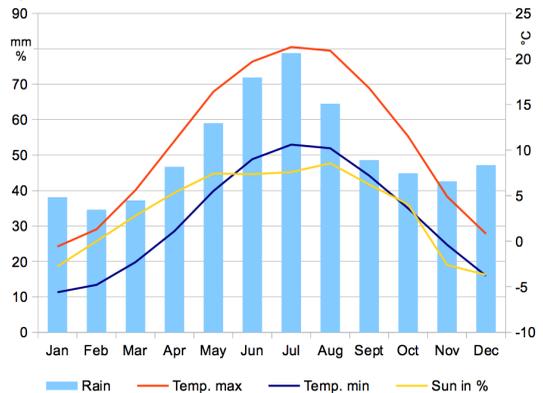

4.1 million people live in Saxony. The capital is Dresden, which is also known as centre of cultural life. Apart from that Leipzig and Chemnitz are the Saxon centres of trade respectively industry. These three cities frame the metropolitan area of "Mittelsachsen".

As the economically most powerful federal state of all new German states, Saxony traditionally focuses on engineering and machine construction. Nowadays, besides the industrial sectors of high-technology, especially automotive engineering guarantees the productive efficiency of the state. In the scenic areas, tourism plays a major role.

Saxony belongs to the mild climatic zone of Central Europe. The year is segmented into the four seasons: spring, dry and warm summer, autumn as well as cold and snowy winter (also look at the diagram on the right)

Saxons are considered as hard working, comfy and friendly, vigilant and chummy. They are often taken for a ride because of their accent, which they shrug off with serenity. :-)
